## HARBINGER

Next season we are planning to put on the market our new seedling which we have named Harbinger. We have had it under observation for a number of years and we have had it tested out by the eminent authority, Mr. Gersdorff, who describes and rates it as follows: Color, grenadine red, blended and shaded Mars orange on tips and edges, bases of lower petals salmon orange with feather blotch of Mars orange, pistil butternut orange, anthers edged blackish violet wide orchid form, ruffled and fluted, a beautiful color. Rated exhibition 95, commercial 94, landscape 97. One of the finest and most distinct grown by me; an outstanding variety. Primu-

linus type, medium height, great multiplier. For 1926 planting we will offer one bulb with every \$10.00 order as a premium.

## DAHLIAS

The present season has been very unsatisfactory for dahlias and our stock and number of varieties has been reduced. We are offering the following varieties only:
